

Post high school education and training

HISTORY OF PALM BEACH JUNIOR COLLEGE

The Palm Beach Junior College was founded in 1933 by Superintendent Joe Youngblood and Mr. Howell L. Watkins. Both these men saw the need for an opportunity for all young people to get a college education. Through a great deal of work and effort on the part of these two men, Palm Beach Junior College got underway and became the first public junior college in the State of Florida. As a result, over 5,128 students have enrolled at Palm Beach Junior College during its 26 years of educational service.

The Junior College was started in the annex building near the present Palm Beach High School and both facilities and teachers were used at the beginning.

It was moved to ^{the Airport} ~~Morrison Field~~ where it stayed for 3 1/2 years when it stayed for 5 years

It was moved to ^{the Airport} ~~Morrison Field~~ in 1948 and then to Lake Park in 1951. The State Legislators saw the value in the junior college program and appropriated money for the new junior college to be built at the present site in Lake Worth, Florida. The County Commission cooperated with the Board of Public Instruction, School Trustees, and College Advisory Committee and donated 114 acres in 1955. The college moved into its new facilities in the fall of 1956 where it is enjoying a tremendous growth both in facilities and over-all college program.

Law	
Music Education	

Estimate per year - Fees \$107.00 per year

Estimate books \$50.00 per year

Out-of-State \$200.00 extra per year

Non-district \$50.00 extra per year

Comparison to State University for same year - \$1400.00

Comparison to private universities for same year - \$1800.00

SURVEY: A recent survey to show that a college is a financial asset to a community showed that each student is responsible for the expenditure by somebody of between \$600 and \$1000 per year through services, transportation, food, and medical attention. With this in mind, a college can be classified as an industry worth \$1000 per student for the area, which would bring the value of Palm Beach Junior College to the local area to \$987,000. This survey indicates that if these students were not enrolled at Palm Beach Junior College, this money would be spent in some other community.

PALM BEACH JUNIOR COLLEGE TODAY, cont'd.

PROJECTED ENROLLMENT: 1962-63 - 1,309 day students. This would mean that a total of 2,500 students would be enrolled during the year (day and evening).

EVENING DIVISION: High school graduates who find it necessary to go to work still have the opportunity to start college program by entering the evening division. Fully accredited, acceptable transfer credits may be received by attending the night classes starting at 7 p.m. and lasting until 10 p.m. Monday through Friday at the Palm Beach Junior College. The present enrollment of the evening division is 436.

COLLEGE LIFE: All regular students entering Palm Beach Junior College have the opportunity to develop completely in all areas of leadership by joining the organizations and groups set up to cater to all phases of interest. This is felt to be an important part of college life and is strongly encouraged as soon as the student has had an opportunity to adjust to his academic responsibilities.

GUIDANCE AND COUNSELING: A carefully trained staff has been selected to help all students with their academic and personal problems. Each student is provided with an interview before enrolling. He also is given a series of diagnostic tests. The counselor utilizes the high school record, the twelfth grade test scores, and the junior college test scores to aid the student in assessing his potentialities. This provided the best possible assistance in making the adjustment to college work. Each student is provided with a complete orientation to the college staff and student organizations.
